Demonstration of XR experience via Hands-On Session

Thursday 9 October 2025 10:40 (20 minutes)

To better demonstrate the entire operation cycle of the SCI framework at the event, given the impracticality of bringing bulky devices, it has been decided to create a digital twin of the process, to be shown to the audience via smart glasses. The interactive digital twin will display the various functional parts of the project, allowing the components created by individual partners to be appreciated.

Primary authors: SCHIRM, Christoph (Thyssenkrupp Rasselstein); BORASIO, Emanuele (weAR Srl); Dr BRANDENBURGER, Jens (VDEH-Betriebsforschungsinstitut); DOREL, Laurent (CLECIM SAS); KRÄTZNER, Michael (SALZGITTER FLACHSTAHL GMBH); MATSKANIS, Nikolaos (CENTRE D'EXCELLENCE EN TECHNOLOGIES DE L'INFORMATION ET DE LA COMMUNICATION); ARGONETO, Pierluigi (YOURSCIENCEEDU SRL)

Presenter: BORASIO, Emanuele (weAR Srl)

Session Classification: Process Optimization & Control

Track Classification: Digital transformation
