

7th European Steel Technology and Application Days - ESTAD 2025

Wednesday 8 October 2025

Automation & Digitalization - Margherita II (14:00 - 16:00)

time	[id] title	presenter
14:00	[166] SMART Grease selection for Roller Bearings of Continuous Casters and Rolling Mills to reduce maintenance cost and extend bearing life.	Mr MATTERN, Tim-Oliver
14:20	[370] Relaxation and creep in hot coiled steel strip	LINDWALL, Johan
14:40	[409] A significant example of successful revamping of a wire rod line for the production of special steels	CIMOLINO, Maicol
15:00	[295] Finite Element modelling of skid marks on steel slabs in a walking beam reheating furnace	Dr LINDWALL, Johan
15:20	[46] Construction of heat treatment analysis model considering transformation plasticity and accuracy verification	FUJISAWA, Takuya
15:40	[408] Unbeatable product properties and performance of Danieli's K-Spooler	Dr CIMOLINO, Maicol
