Session Program

Oct 6 – 9, 2025

7th European Steel Technology and Application Days - ESTAD 2025

Control and modification of the non metallic inclusions

Palaexpo Veronafiere
Veronafiere, Viale del Lavoro 8, 37135 Verona

Thu, October 9

11:20 AM

Control and modification of the non metallic inclusions

Session | **Location:** Palaexpo Veronafiere, Auditorium Verdi, Veronafiere, Viale del Lavoro 8, 37135 Verona |
Convener: Christian Bernhard

11:20 – 11:40 AM

Comparison of methods for modification of oxidic non-metallic inclusions using alkali elements on a laboratory scale

Speaker
Nikolaus Preisser

11:40 AM – 12:00 PM

Evolution Behavior of Non-Metallic Inclusions in Al-killed Ti-bearing Ferritic Stainless Steel

Speaker
Mr DONGYUL JUNG

12:00 – 12:20 PM

Evolution of non-metallic inclusions in non-oriented electrical steel: Industrial observations and laboratory test results

Speaker
Bernhard Sammer

12:20 PM
