

7th European Steel Technology and Application Days - ESTAD 2025

Thursday 9 October 2025

Ironmaking Cokemaking - Vivaldi (08:30 - 10:10)

time	[id] title	presenter
08:30	[89] Innovative Decarbonization Strategies: Thermal dry reforming for enhanced blast furnace efficiency	CASTAGNOLA, Cristiano
08:50	[108] Impact of iron source and binder type on the mechanical strength and microtexture of ferro-coke	LU, Guanghua
09:10	[180] Control of Low Bulk Density Region around Briquette in Briquette Blending Carbonization Process	Mr TAKAHASHI, Isao
09:30	[233] Adapting to age: Upgrading Coke Oven Machines for sustainable plant longevity	Mr KORKMAZ, Gabriel
09:50	[130] Influence of HDPE addition on microstructure transformation during coking of Australian coking coals	Mr JO, Jangho
